

We work with:

- K-12 (Public & Private)
- Colleges & Universities
- Independent School Districts
- Educational Support Services
- Learning Centers
- (and others)

datamax

goVertical.® education

Education Providers

Expanding enrollment, escalating costs, rising security issues and emerging demands for networked guest access pose real challenges for educational providers today. Datamax's technology portfolio addresses such challenges by lowering costs, automating processes, and improving communication between faculty, professors, students and parents. ***Count on Datamax to maximize the technology that matters!***

Datamax can help you:

- increase faculty productivity through easy-to-use enhanced document workflow solutions and responsive service,
- centralize the management of your fleet, spread across multiple K-12 or university campus locations,
- quickly route student information, class assignments and test results to SharePoint, Box, Google Mail, Outlook or other email systems or shared repositories directly from MFP control panels,
- improve decision-making with complete student testing records accessible in real-time, *and*
- leverage compatible cost-recovery systems to enable school administrators the ability to monitor, manage and charge back department costs as well as students, visiting professors, and guests.

Through relevant technology advisory and total solution deployment, we help education providers "go vertical" by maximizing their workflow processes, communications, and budget utilization.

creating
raving fans

When asked, "how likely would they recommend Datamax to a friend or colleague," our customers have scored us a **9.7** since 2012.

9.7

Advantages You'll Realize.

Workflow Management

Optimize productivity and reduce labor costs with customized and integrated workflows that combine multiple tasks into single processes. For maximum efficiency, student information, class assignments and test results can be routed to any destination based on pre-defined rules.

Privacy and Security Management

Empower IT administrators to control exactly who is authorized to access, print, copy, scan or send confidential information. Ensure security and privacy compliance with FERPA guidelines.

Print On Demand

Course materials, educational reports, booklets and binders can be submitted to networked printers anywhere on your campus, at any time.

Mobile Printing

Offer students and faculty the power to print and scan 24/7 on any networked MFP from any campus location with wireless communications. Access and print emails, manage student files, web pages and more.

Cost Accounting and Recovery

Schools, universities and libraries can utilize MFP account-tracking functions to assign costs to departments, grants, or individual teachers and students with device level, integrated cost recovery systems.

Services We Offer.

Unified Communications as a Service (UCaaS)

Datamax's UCaaS unifies education-related channels for communicating and conducting business - phone system, team chat and messaging, video conferencing, file collaboration and more - under one manageable, reliable, and secure platform.

Network Management

Leverage comprehensive network services featuring **TechCare[®] Managed IT Services**, **Cloud Services**, **Information Security Services**, and **TechCare[®] University User Training** for IT specific initiatives—all supported by 24/7 **TechView[®]** remote help desk support.

Print Management

Optimize your print output through best-in-class print technology and the industry's most responsive approach to managed print services—**PrintCare[™]**. All supported 24/7 by **PrintView[™]**—remote access for printing and connectivity.
