goVertical.® manufacturing

Manufacturing Firms

Effectively competing in today's fast-moving global marketplace has manufacturers more determined than ever to minimize, if not eliminate, any hesitation or hiccup in their core processes. To remain relevant, keeping pace with the accelerating speed of product development, innovation, and delivery is essential. Datamax's technology portfolio addresses such challenges by lowering costs, automating processes, and improving communication between engineers, plant operations, suppliers, and customers. *Count on Datamax to maximize the technology that matters!*

Datamax can help you:

- enhance communication and speed up supply chain performance through easy-to-use document and imaging workflow solutions,

- improve sharing conceptual documents, collaborate on designs, acquire quicker product review consensus, expedite product development, and manage costs to reduce overall time to market,

- achieve and maintain quality management standards by developing a central, accessible repository of your latest ISO 9000 documents,

- track, report, and accurately bill document expenses back to specific cost centers (*by user, group, department, and more*), *and*

- avoid unnecessary regulatory audits and protect against litigation with document solutions that improve responsiveness to compliance requests.

Through relevant technology advisory and total solution deployment, we help manufacturers *"go vertical"* by maximizing their workflow processes, communications, and bottom line.

Advantages You'll Realize.

Enterprise Content Management
Leverage powerful data capture tools to process varied types of content—including e-mails, schematics, tool approvals, quotes, contracts, bill of materials, and digital photographs—into a secure single, standardized/managed system, configurable to the needs and uses of each project.

Workflow Management
Improve productivity and reduce time with customized and integrated workflows that combine multiple tasks into single processes. Accelerate manufacturing approvals and minimize delays with workflow automation, distributed capture, and other business process optimizations.

Graphics Color Printing
Better communicate ideas with quality wide-format and color print systems to produce product concepts, storyboards, CAD drawings, production line changes, facility improvement plans, and more—all in-house.

Secure Mobile Printing
Offer manufacturing staff the power to securely print and scan 24/7 on any networked MFP from any location with wireless communications. Access and print emails, production schedules, supplier agreements and more.

Document Security
Expand the protection of intellectual property (*i.e. product designs, formulas, strategic plans*) with powerful MFP-based document security.

Services We Offer.

Unified Communications as a Service (UCaaS)
Datamax's UCaaS unifies manufacturing-related channels for communicating and conducting business - phone system, team chat and messaging, video conferencing, file collaboration and more - under one manageable, reliable, and secure platform.
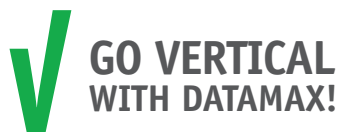

Network Management
Leverage comprehensive network services featuring **TechCare**® Managed IT Services, Cloud Services, Information Security Services, and **TechCare**® **University** User Training for IT specific initiatives—all supported by 24/7 **TechView**® remote help desk support.

Print Management
Optimize your print output through best-in-class print technology and the industry's most responsive approach to managed print services—**PrintCare**™. All supported 24/7 by **PrintView**™—remote access for printing and connectivity.
